SUMMARY

Flutter developer with 2+ years of production experience shipping Android and iOS applications across healthcare, fintech, SaaS, and e-commerce. Proven in Firebase, REST APIs, biometric authentication, state management (GetX, Bloc/Cubit), and unit/widget testing and delivered measurable outcomes, including 80% reduction in manual data entry via ML Kit OCR—full release cycle ownership on Google Play Store and Apple App Store.

EXPERIENCE

Flutter Developer · [Analyze Bangladesh Limited](#) *Dec 2024 – Present*

- Contributed to the development of CREED, CM App, and Microzen, supporting commerce, SaaS, and financial collection operations.
- Integrated Stripe payments, Google Maps, Firebase Analytics, deep linking, and push notification services into production applications.
- Built an OCR-based NID information capture feature using Google ML Kit to simplify customer onboarding.
- Implemented biometric fingerprint verification using native Android SDK integration through Flutter platform channels.
- Published and maintained Android and iOS application releases through Google Play Console and App Store Connect.

Flutter Developer · [Healthcare Information System Limited](#) *Jul 2024 – Nov 2024*

- Developed key modules for MDaktar, including appointment scheduling, patient records, and consultation workflows.
- Integrated Agora SDK to enable real-time video consultations between patients and healthcare providers.
- Added bKash payment processing and Firebase Cloud Messaging to support payments and user notifications.
- Built API driven features using GetX and local storage solutions to improve application responsiveness and user experience.

Flutter Developer · [Envision Technology Limited](#) *Nov 2023 – Jun 2024*

- Developed telemedicine functionality for the TeleDaktar platform using Flutter and RESTful APIs.
- Integrated Agora SDK and Firebase Cloud Messaging to support virtual consultations and notification delivery.
- Assisted with application releases, bug fixing, and maintenance activities throughout the development lifecycle.
